

2025

LEGISLATIVE PRIORITIES

WORKFORCE & EDUCATION

- Support legislation to increase the public education basic allotment and provide an ongoing inflationary adjustment in the school funding formula.
- Support education funding that requires consistent accountability standards.
- Support workforce development and reskilling through increased funding for higher education institutions.
- Support legislation that increases financial literacy and soft skills in public high schools.

TRANSPORTATION & INFRASTRUCTURE

- Support legislation that future-proofs energy production and water accessibility, lowering costs and increasing reliability.
- Support legislation ensuring infrastructure planning is coordinated with local growth, supporting improved mobility.
- Support funding for increased broadband access and service, inclusive of both wireless and wireline providers.

QUALITY OF LIFE

- Support efforts that promote safe and secure communities and access to workforce.
- Support legislation that promotes a low-regulatory business environment and does not place limitations on local control.
- Support efforts to reduce the cost for employers providing health benefits, as well as, support the use of supplemental payment programs to provide support and access to care for underserved patients.
- Support the use of economic development tools that create a measurable increase in jobs and capital investment in Texas.
